

Como instalar el plugin .exe en cámaras HD

Tras lanzar la ultima versión de firmware 2.x.1.10 Foscam ha introducido un plugin .exe para Windows. Tras instalarlo en su navegador, funcionará para Internet Explorer, Chrome y Firefox. No necesita instalar plugins diferentes para los diferentes navegadores.

Vamos a tomar como ejemplo Internet Explorer para instalar el plugin

1. Haga clic en **Instalar** sobre la parte inferior de la pantalla, para iniciar el proceso cuando su cámara lo solicite.
